Meet Your Coach Jay Scherr

"I have loved all things business since I can remember. I was interested in understanding why some businesses succeed when others fail. After college, I spent over 30 years working with corporations and entrepreneurs and acquired a wealth of experiential knowledge and confidence in my abilities to inspire others and achieve meaningful results. I felt it was the right time to embark on my own journey with the sole purpose of helping business owners improve performance, realize their goals and get what they want from their business."
